Engineering and Mining Journal

Index to Volume 135 - - - January to December, 1934

Explanatory Note

THE general index to this volume is preceded by a list of the editorials published in the volume, and is followed by an index of authors. In the general index editorials are denoted by the letter "e" and news items by the letter "n." Following is a list of the pages included in the numbers of the volume by date:

January	1 to 48
February	49 to 96
March	97 to 144
April	145 to 192
May	193 to 240
June	241 to 288
July	289 to 336
August	337 to 384
September	385 to 432
October	433 to 480
November	481 to 536
December	537 to 584

EDITORIALS

Acid test for nineteen thirty-four..... 97
Air conditioning offers mining new life.. 538
Annual assessment work on mining claims. 146
Arts and wider application of technical ability 50
Basis for planning under the NRA..... 145
Business outlook 290
Business and government at the crossroads. 433
Business and government in cooperation.. 537
California gold continues to enrich the nation 481
Canadian mining industry leads in Dominion recovery 385
Complexities of the copper code..... 49
Copper industry launched under code regulation 193
Currency stabilization and gold output records 98
Dredging increases in California..... 290
Economic honesty in management..... 194
Economic planning for the mineral industry 193
Federal loans to mining 538
Geophysical prospecting and "doodle bugs" 97
Janus 1
Labor relations still a challenge to management 289
Minerals and debts 290
Mining industry maligned on safety score.. 147
Mining outlook 434
NRA progress and problems 50
Non-ferrous metal statistics point to trade expansion 147
Out where the blue begins 242
Political embarrassment of the Bureau of Mines 337
Precious metal prices make the past live again 194
President, as conciliator, interprets section 7(a) 146
Pressure of base-metal stocks affects price levels 97
Promoting non-metallics 242
Recovery of fine gold from gravels 194
Selection of code authority now copper industry's vital problem 145
Silicosis and the missing link 291
Silicosis legislation looms on the industrial horizon 2
Silver as a bactericide 291
Silver legislation looms on the Congressional horizon 241
Spirit of inquiry vs. contented ignorance. 49
Twice told geophysical tales..... 290
U. S. Geological Survey and Bureau of Mines in eclipse 2
U. S. Mineral resources pattern..... 291
With the institute in New York..... 98
Work versus the dole 242
